The **Spanish Language Program** offers intensive courses of 20 or 30 hours per week for students age 17 or older to improve their language skills (listen, speak, read and write) and intercultural awareness. Classes of 7-10 students are taught in Spanish using interactive, communicative methods. All levels are offered to prepare students for official Spanish language diplomas and certificates (DELE, SIELE) and for university studies in Spanish. Courses for pre-formed groups are available.

The **University Program**, taught at the University of Seville (US), is designed for students of Spanish language beginning, intermediate and advanced levels, who wish to earn credits toward their major or minor as they improve their Spanish skills and intercultural competence. Students choose Spanish Language courses and content courses from a variety of fields of study, taught

in Spanish or English, to groups of 8-12 students, and learn alongside Spanish and international peers.

The **Customized Programs** are designed for Faculty Leaders who wish to take a group of students to study and travel in Spain. International Universities and Faculty Leaders use our vast experience in Spain to design their own program in any field of study for any length of time with your preferred itinerary, program theme, dates, course content, activities, visits, study trips and lodging.
