DESCRIPTION

For more than 18 years, Nebrija University has received students from all over the world who come to spend a period of their academic training with us. Every effort is made to integrate international students into daily university life. In the majority of programmes, they attend classes side-by-side with Spanish students.

Students can take courses in their area of specialization, design their own curriculum (taking courses of their choice). International students are students in their own right at Nebrija. They have access to all activities and general services (libraries, computer labs, sports facilities, etc.) and all extra-curricular activities as well.
