EDUCATIONAL & CULTURAL

SCHOOL TRIPS

Travel with Idiomas Carlos V on your school year trip abroad. These exciting trips take place year round and include Spanish immersion, cultural visits, activities, and so much more. Join us and let's get started on your trip of a lifetime.

SUMMER IMMERSION PROGRAMS

Our schools in Seville, Malaga, and Madrid host immersion programs in the summer. Students can join us individually or may come as part of a school group. Students are welcome to stay in one or more of our cities from anywhere from 1 to 6 weeks in July and August. Here students will not only have the opportunity to improve their Spanish, but also make lifelong friends from students from all around the globe.

TAILOR MADE TRIPS

Idiomas Carlos V understands that every school's needs are individual and distinct. We will shape and structure the itinerary to the interest and schedule of each school. But we will always put the emphasis on unforgettable educational experiences. We strongly recommend participation in at least a few hours of immersion classes during the students' stay, and believe this unique opportunity at our facilities is one factor that sets us apart, but in every case, they will have the opportunity to learn and produce Spanish through the interactive activities, workshops, and tours involved in every trip.

With our schools in Seville and Malaga many trips include some immersion class hours

here, and extra days to really get to know the nooks and crannies of the city and maximize the opportunity to practice the language and get a true feel for the place. Students have the chance to enjoy our modern facilities and interact with our Spanish students here.

But being both a school and a travel agency, we are able to plan out custom made routes throughout the country, with the students accompanied by Idiomas Carlos V wherever they go.

Whatever itinerary you choose, know that from the moment you are picked up and until the moment you are dropped off again, every minute of your stay you will be taken care of and be at the complete disposal of Idiomas Carlos V. Tickets, logistics, reservations, lodging, transportation, hours and scheduling and any other concerns will all be looked after by us. Even when students and teachers choose to have free time we are a phone call or message away, 24 hours a day.

IMMERSION CLASSES

At Idiomas CarlosV we offer immersion classes at our schools in Seville, Malaga, and Madrid and can include this in part of your itinerary. Classes can be held at our schools or on site at one of your visits activities or workshops.

It is an opportunity to take some risks with Spanish, to interact with our experienced native teachers, staff, and team, and take full advantage of our language facilities.

Classes will be vocabulary based and a time to learn some essential expressions in the city, and key words that will tie into their visits and the theme of the day. It is also a nice moment to "reflect" on what the students have seen, felt, smelled and experienced the day before.

Should your school choose to participate in the classes, together we can decide the most appropriate level and number of hours or days for your group.

JACK

“I thought the classes were super interesting because it's the first time I really learned Spanish from a native Spanish speaker.”

ACTIVITIES & WORKSHOPS

Any country is much more than just its most emblematic buildings, landmarks, and monuments, however impressive they may be. Participating in activities that make up the culture of a place is essential to the student experience. At Idiomas Carlos V we include these opportunities in our programs.

How about learning some Flamenco dance steps, and the even more local "Sevillanos" with a native instructor, followed by an authentic show in an intimate local neighborhood theater?

There is nothing quite like seeing all the ingredients that go into a dish you are going to enjoy, and help prepare it yourself, which is exactly what you will do as you cook up a "paella" with a local chef.

And speaking of food, a trip to Spain is never complete without a "tapas night" as you will

go bar to bar tasting some of the best food the country has to offer.

What about visiting an ancient castle, and actively participating in the life within it as you take part in a recreation with your expert local knight and his personal steward?

And why not visit an olive farm where you can help plant local produce with the farmers.

Sports? Soccer is king here so you might want to take in a local game during your stay, or perhaps take part in a match with Spanish students. And they would be more than happy to learn about your favorite sports and take a few pointers.

These are just some of the activities that can enhance your trip even more.

“I had a lot of fun and the teachers know a lot about Sevilla so it was really great.”

IMPORTANCE OF IMMERSION

At Idiomas Carlos V we emphasize immersion on our trips so students participate in and take back with them the culture and language of Spain. Immersing in a culture does not mean one needs to be fluent but makes the attempt to embrace and become deeply involved in what is around us.

IMMERSION IN A CULTURE

Promotes personal growth and independence and enhances self-esteem

Increases the desire to learn and continue studying the language

Helps students overcome the fears of being away from home and in another country speaking a different language

Increases communication and social skills

From the moment you arrive you will actively participate in the experience of life in Spain

PRACTICING THE LANGUAGE

At Idiomas Carlos V we want **the Spanish language to be part of your students' experience**. Whether the student is a complete beginner or a more advanced learner, everyone here will have an opportunity to put into practice the Spanish language the locals speak here.

Just by a simple "buenos días" as you walk into a shop, you will be doing what every single native speaker here does in their daily life. And **your student will feel a sense of achievement when the shopkeeper smiles, nods and responds likewise**.

By participating in our activities and workshops students will practice food vocabulary as they prepare a paella. They will learn important terms used in Spanish song and dance. They will instinctively shout "Gol" should they dare to challenge our Spanish students to a game of "futbol".

We believe that taking home just a little bit of the Spanish here will make an already unforgettable trip that much more meaningful. Students will go home with expressions that will stay with them for a lifetime, and most certainly, impress their Foreign language teachers back at school.
